HEARSE REPORT.

Report of agent chosen March 12, 1901, for the purpose of securing a hearse for the town according to Article 8th in the warrant.

Said agent attended to the duty for which he was chosen April 20, 1901, and accepted, in behalf of the town, the hearse donated by Mrs. Abbie D. Merrill upon the following conditions, being the same as were unanimously adopted by vote of the town at the annual meeting, March 8, 1892:

1. It shall be for the use of all resident and for non-resident who may be brought to the town for interment, free from personal charge.

2. It shall be kept in charge of the undertaker in this village, or his successor in the business, who shall keep the same in a room by itself, free from barn odors, and receive from the town a sum which will enable him to drive and take proper care instead of placing it in the care of any who might, through prejudice or political feeling, agree to do the work for a less sum than it is actually worth and thereby neglect to give it proper care.

3. Should parties in adjoining towns desire the use of said hearse, they shall make all arrangements with the keeper, who shall, in all cases, receive such compensation as

the case may demand, paying one-half above the amount he receives for driving in town, to the town and the other half to the keeper for his services, and he shall make a report of the same to the town annually.

REPORT OF SCHOOL BOARD.

In preparing the report for our schools for the year ending Feb. 15, 1902, we find little that is new to present for your consideration. We have maintained six schools of thirty weeks in length. As usual, we have aimed to secure efficient teachers and retain them through the year. We estimate the school work of the year to have been very successful. In some schools a high standard of excellence has been maintained.

On the part of all our teachers there seemed to be a desire for the best; yet it is not supposable that all would possess that tact in government and the skill in imparting instruction which crowns some with remarkable success. We would strongly impress on the minds of our teachers the necessity of good order in and out of the schoolroom; for, in our opinion, whenever a teacher is unsuccessful it is, in a large majority of cases, from lack of discipline. We would again impress upon the parents the need of co-operation with the teachers in order to have successful schools. It matters not how earnestly the teacher may work to advance the scholars; if parents do not sympathize and work with them their labor will be in vain. Parents should realize that *personal* inspection is better than written reports, that *every day* work is better than prepared public exercises, by which to judge the merits of our schools, therefore do not wait for "last day" exercises, but visit school *any* day, at *any* hour; you will be welcomed by teacher and pupil, who will be delighted to prove to you that their time is not spent in vain.

During the past year considerable supplementary read-

ing has been introduced into our schools; this has always brought great interest to the pupils and become a means of recreation and reward in this important branch of study. It gives them acquaintance with different styles of writing, and knowledge of various authors. We believe this is one of the essential steps to lead the child's mind from the text book to the vast field of literature. Increased attention should be given to the study of physiology, especially in reference to the effects of narcotics and stimulents. This instruction, which may be oral, has, we think, been taught by some of our teachers sufficiently to meet the requirements of our school laws. The attendance during the year just closed has been very good. In the village and Quincy schools the absences were nearly all due to sickness among the pupils.

Perhaps it would not be out of place for me to mention here how necessary is an appropriation of money for use of repairs during the coming year.

The Quincy schoolhouse is sadly in need of permanent repairs. In my opinion there should be a shed, outside of the schoolhouse, for wood. The constant use of the shed now in use is, to an extent, ruining the structure. The Mont View schoolhouse should be painted, not only for looks but to preserve it. We cannot afford to let our school buildings suffer from neglect.

In closing let me say I am very grateful to parents, teachers and pupils for their kind words of sympathy during the past year of my school work.

Respectfully submitted,

SUSIE C. ATWOOD.
